

THE DRUID

CLASS HANDBOOK

Master of the Wild!

Do you love animals, plants, and the power of nature? The Druid is a magical protector of the wilderness. You can summon lightning storms, talk to animals, make vines grow to trap your enemies, and—best of all—magically transform into animals yourself!

CLASS MECHANICS

WILD SHAPE

This is your coolest power! You can magically turn into an animal you have seen before. You could become a sneaky spider to spy on guards, a fast horse to run away, or a giant bear to fight monsters! When you are an animal, you get their Hit Points. If your animal form drops to 0 Hit Points, you just turn back into your normal self!

NATURE SPELLCASTING

You use your **Wisdom** to cast spells. Your magic is all about nature. You can heal friends, shoot fire, create fog, or summon magical animals to fight for you. You use a druidic focus (like a special wooden staff or a piece of mistletoe) to cast your spells.

DRUIDIC LANGUAGE

You know a secret language called Druidic. You can leave hidden messages on trees or rocks that only other Druids can read!

STRENGTHS

- **Super Versatile:** You can heal, fight, use magic, and sneak around. You can do a little bit of everything!
- **Extra Health:** Wild Shape gives you a whole second health bar! You are very hard to defeat.
- **Great Explorer:** You are amazing at surviving in the woods and finding paths.

WEAKNESSES

- **No Metal Armor:** Druids refuse to wear armor or use shields made of metal, so your Armor Class (AC) might be a little lower than a Fighter's.
- **Complicated:** You have to manage your spells AND remember the stats for the animals you turn into.

LEVELING UP

As you adventure and defeat monsters, you will level up! Every time you level up, you get stronger and learn awesome new nature magic.

LEVEL	AWESOME NEW POWERS!
1	Spellcasting & Druidic: You learn how to cast nature spells and speak the secret Druidic language with other protectors of the forest!
2	Wild Shape & Subclass: This is huge! You can now turn into animals! You also pick your <i>Druid Circle</i> (your subclass) which gives you special unique abilities.
3	Level 2 Spells: Your magic gets much stronger! You can now cast spells like <i>Flaming Sphere</i> to burn enemies or <i>Pass without Trace</i> to make your whole team super stealthy.
4	Ability Score Improvement: You get smarter, faster, or tougher! You can increase your Wisdom to make your spells better. Plus, your Wild Shape gets better—you can now turn into swimming animals like a Crocodile!
5	Level 3 Spells: You unlock incredibly powerful magic. You can cast <i>Call Lightning</i> to blast enemies with stormy weather or <i>Revivify</i> to bring a fallen friend back to life!

LEVELING UP TIP!

Always try to increase your **Wisdom** when you can. It makes your spells hit harder and makes it harder for monsters to dodge your magic!

SUBCLASSES: DRUID CIRCLES

At Level 2, you choose a "Druid Circle." This is the special group of druids you belong to, and it gives you really fun new powers! Here are two amazing, fun choices:

CIRCLE OF THE MOON

Do you love turning into animals? Then this is for you! Moon Druids are the absolute best at Wild Shape. While other Druids might turn into a tiny wolf, you can turn into a massive **Dire Wolf** or a huge **Brown Bear** very early on!

- **Combat Wild Shape:** You can transform as a *Bonus Action* instead of a regular Action. This means you can turn into a bear AND attack on the exact same turn!
- **Tougher Forms:** You can transform into much stronger animals with more health and better attacks.
- **Magical Healing:** While you are in animal form, you can use your spell slots to heal yourself. You are almost impossible to defeat!

CIRCLE OF THE STARS

Do you love looking up at the night sky? Star Druids draw their magic from constellations. You get a special Star Map (it could be drawn on a piece of tree bark or a glowing crystal) that gives you awesome space magic!

- **Starry Form:** Instead of turning into a normal animal, you can use your Wild Shape to become a glowing, starry version of yourself!
- **The Archer:** In Starry Form, you can shoot glowing magical arrows of light as a *Bonus Action*!
- **The Chalice:** In Starry Form, your healing magic gets a huge boost, letting you heal two people at once!
- **The Dragon:** In Starry Form, you become super focused, making it very hard for enemies to break your magical concentration.

GEAR & STRATEGY

WHAT GEAR SHOULD I USE?

Druids are a little unique because they **will not wear metal armor** or use metal shields. They believe in keeping things natural!

- **Armor:** You will start with Leather Armor. Later, look for Hide Armor or armor made out of magical wood, dragon scales, or tough animal shells!
- **Shield:** A sturdy wooden shield is your best friend. It gives you a +2 to your Armor Class (AC).
- **Weapons:** A magical wooden Quarterstaff or a curved sword called a Scimitar are great choices. You can even cast a spell called *Shillelagh* to make your wooden stick hit as hard as a giant sword!

HOW TO FIGHT LIKE A DRUID

Because you can do so many things, you have to choose your role in battle:

- **The Blaster:** Stand behind your tough friends (like the Fighter or Barbarian) and cast spells like *Moonbeam* or *Ice Storm* to hurt the bad guys from far away.
- **The Healer:** Keep an eye on your friends' health! If someone gets hurt, use *Cure Wounds* or *Healing Word* to fix them up.
- **The Bear (Wild Shape):** If the bad guys get too close, turn into a big animal! A Brown Bear has a lot of health and can attack twice per turn. It's a great way to protect your team.

STRATEGY SECRET

Use *Entangle*! It's a Level 1 spell that makes magical vines grab enemies. If they are trapped, they can't move, and your friends will have an easier time hitting them!

ROLEPLAYING YOUR DRUID

Roleplaying is how you act and talk like your character. Druids are deeply connected to the earth, but every Druid is different! How will you play yours?

WHERE DID YOU COME FROM?

- **The Deep Forest:** You grew up among ancient, giant trees and talk to squirrels and birds more easily than people.
- **The High Mountains:** You are used to freezing cold and soaring eagles. You might be a bit wild and stormy!
- **The Swamp:** You know all about weird bugs, creepy glowing moss, and tricky frogs. You aren't afraid of getting muddy!

FUN QUIRKS & HABITS

Give your character a fun habit to make them memorable!

- You refuse to sleep in a bed at an inn, preferring to sleep outside in the dirt or up in a tree.
- You always collect interesting leaves, rocks, or shiny bugs that you find on your adventure.
- You accidentally talk to the horses pulling your wagon instead of the person driving it.

- When you cast spells, your eyes glow with a green or starry light, and the smell of rain fills the air.

BE THE VOICE OF NATURE!

If you see someone littering or hurting an innocent animal, your Druid should definitely step in and tell them off! You are nature's superhero!

LEVELING UP (LEVELS 6 TO 10)

Your magic is growing even wilder! From levels 6 to 10, you become a true master of nature, unlocking epic new abilities.

LEVEL	AWESOME NEW POWERS!
6	Subclass Feature: Your Druid Circle gives you a new power! Moon Druids can now magically bypass monster defenses, and Star Druids get to use a glowing cosmic reaction to help friends!
7	Level 4 Spells: You can cast giant spells! Turn your enemies into harmless animals with <i>Polymorph</i> or summon creatures from the forest with <i>Conjure Woodland Beings</i> .
8	Ability Score Improvement: Boost your Wisdom even higher to make your spells super hard to dodge, or pick a new fun Feat! Plus, Wild Shape lets you turn into flying animals like Giant Eagles!
9	Level 5 Spells: Time for huge magic! You can cast <i>Mass Cure Wounds</i> to heal your whole team at once, or bring a whole tree to life to fight for you with <i>Awaken</i> .
10	Subclass Feature: Your Circle power grows again! Moon Druids can now turn into awesome Elemental creatures (like a fire or water elemental)!

LEVELING UP TIP!

Now that you can fly as an animal, use it to scout out dangerous areas from the sky, or carry your friends to safety!

FAMOUS HEROES & LEGENDS

Throughout history, powerful Druids have protected the natural world from evil. Here are a few legendary heroes to inspire you:

KEYLETH OF THE AIR ASHARI

A clumsy but incredibly powerful half-elf druid who learned to master the elements. She can turn into giant beasts, fly through the air, and has a magical crown made of antlers!

HALSIN, KEEPER OF THE GROVE

A massive, friendly elf druid who is built like a mountain but loves nature more than anything. His favorite Wild Shape form is a gigantic cave bear, and he helps protect a beautiful grove from scary goblins.

FALDORN THE SHADOW DRUID

A legend from the past who believed nature was stronger than any city. She fought fiercely to protect the wild using swarms of bugs and ferocious wolves. She reminds us that nature can be wild and untamed!

CREATE YOUR LEGEND

What will your story be? Will you be the hero who saves a magical forest from a terrible dragon, or the druid who learns how to speak with ancient trees?

BEST MAGIC ITEMS

As you explore dungeons and find treasure, look out for these amazing magic items that are absolutely perfect for a Druid!

STAFF OF THE WOODLANDS

This is the ultimate Druid weapon! It looks like a living branch. It lets you cast extra spells like *Wall of Thorns* and can even turn into a giant, living tree that fights for you!

MOON SICKLE

A beautiful silver blade that glows in the dark. It makes all of your healing spells work better, adding an extra burst of magical moonlight to fix up your friends!

CLOAK OF THE MANTA RAY

A super cool cape that lets you breathe underwater and swim as fast as a fish! It's perfect for exploring underwater caves or escaping from a sea monster.

BAG OF TRICKS

Reach into this magical bag and pull out a fuzzy little ball. Throw it on the ground, and it turns into a random friendly animal (like a giant badger or a weasel) to help you out!

COMBAT CHEAT SHEET

Battles can be crazy! Use this quick guide to remember what you can do on your turn.

1. YOUR ACTION (PICK ONE!)

- **Cast a Spell:** Use your magic to blast enemies or heal a friend!
- **Wild Shape:** Turn into an animal (unless you are a Moon Druid, then it's a Bonus Action!).
- **Attack:** Hit a bad guy with your wooden staff or scimitar!
- **Animal Attack:** If you are already in Wild Shape, use your animal's bite or claw!

2. YOUR BONUS ACTION (IF YOU HAVE ONE!)

- **Cast a Quick Spell:** Some spells (like *Healing Word*) are super fast!
- **Moon Druid Wild Shape:** Turn into a bear and still attack on the same turn!
- **Shillelagh:** Make your wooden club magically glow and hit harder!

3. YOUR REACTION (NOT ON YOUR TURN!)

- **Attack of Opportunity:** If an enemy tries to run away from you, you get one free swing at them!
- **Absorb Elements:** Some magical items or spells let you catch elemental magic and throw it back!

DRAW YOUR HERO!

Every legendary hero needs a portrait. What does your Druid look like? Do they have leaves in their hair? What is their favorite animal to turn into?

- **What is your Druid's name?**

- **What is your favorite Wild Shape?**

- **What is your favorite food to eat in the forest?**
