

THE RANGER

CLASS HANDBOOK

The Wilderness Explorer!

Welcome, tracker! As a Ranger, you are a master of the wild. You know how to survive in deep forests, dark caves, and freezing mountains. You are amazing with a bow, you can cast nature magic, and you are an expert at hunting down dangerous monsters!

AWESOME RANGER POWERS

HUNTER'S MARK

This is your signature spell! You magically mark a monster as your prey. As long as the spell lasts, every time you hit that monster, you do extra damage. You also have an easier time tracking them if they try to run away!

NATURAL EXPLORER

You are a survival expert. You can't get lost in the wild, you can easily find food and water for your friends, and you can track monsters by looking at their footprints. You are the ultimate guide!

BONUS ACTION (CHOOSE ONE)

- **Hunter's Mark:** Magically target a boss monster so your attacks do extra damage! (You can also move the mark to a new monster when the first one is defeated).
- **Two-Weapon Fighting:** If you are holding two light weapons (like shortswords), you can make one extra attack with your second sword!
- **Command your Pet:** If you are a Beast Master, tell your animal companion who to attack!

REACTION (WHEN IT'S NOT YOUR TURN)

- **Opportunity Attack:** If a monster tries to run past you, you can take a quick swing at them with your sword!
- **Absorb Elements:** If a dragon breathes fire on you, use this spell to take less damage!

DRAW YOUR HERO!

What does your incredible Ranger look like? Do you wear a hooded cloak? What kind of bow do you use? If you have an animal companion, draw them too!

- **What is their name?**

- **What is their favorite animal?**

- **What is their favorite place in nature?**

ANIMAL COMPANIONS

Many Rangers (like the Beast Master) get a loyal animal friend! You can have a pet wolf, hawk, or even a bear that fights by your side and helps you scout ahead.

STRENGTHS AND WEAKNESSES

- **Strengths:** You are amazing at fighting from far away with a bow. You are also the best class for exploring and surviving in the wild. Your mix of fighting skills and nature magic makes you very versatile!
- **Weaknesses:** You don't have as much heavy armor as a Fighter or Paladin, so you can get hurt if surrounded. Your magic is also mostly focused on nature and fighting, so you don't have big explosive spells like a Wizard.

As you adventure and defeat monsters, you will gain experience points and level up! Here is what you get at the first 5 levels:

BEST MAGIC ITEMS

Every survival expert needs great gear! Look for these amazing magical items on your travels:

You have a magical bond with an animal! You get a loyal pet that follows you everywhere and helps you fight.

- **Defensive Tactics:** As you level up, you learn how to dodge attacks from giant monsters.

GEAR & STRATEGY

WEAPONS & ARMOR

Rangers need to be quick and quiet!

- **Armor:** Wear light or medium armor, like Leather or Studded Leather. It protects you but lets you sneak around.
- **The Longbow:** Your best friend! You can hit monsters from very far away before they even see you.
- **Two Shortwords:** If monsters get close, you can pull out two swords and attack with a flurry of slashes!

HOW TO FIGHT

Stay back and use your bow! Cast **Hunter's Mark** on the toughest monster on the battlefield, and then pepper them with arrows. If monsters get too close, you can use your nature magic to create thorny vines to trap them, or pull out your swords to fight them up close. If you have an animal companion, send them in to distract the monsters!

ROLEPLAYING YOUR RANGER

BACKGROUND IDEAS

Who were you before you became a Ranger?

- **The Outlander:** You grew up in the wild, raised by wolves or living in a treehouse far from any city.
- **The Bounty Hunter:** You travel from town to town, getting paid to track down dangerous monsters that are bothering the villagers.

- **The Guide:** You know all the secret paths through the mountains and help travelers cross safely.

HOW TO ACT

You are the eyes and ears of the party! When you are traveling, you should be the one leading the way, looking for traps, and tracking footprints. Think about what kind of environment you grew up in—are you a forest ranger, a desert survivor, or an underground cave explorer? Use your knowledge to keep your friends safe! You might prefer talking to animals more than talking to people.

LEVELING UP (LEVELS 6-10)

You are becoming a true master of the wild! Here are the awesome powers you get from levels 6 to 10:

LEVEL	NEW POWERS!
Level 6	Greater Favored Enemy & Natural Explorer: You pick another type of monster you are an expert at fighting, and another type of environment you can easily survive in!
Level 7	Ranger Archetype Feature: You get a special defensive power from your subclass. Beast Masters get a pet with magic attacks!
Level 8	Ability Score Improvement: Make your Dexterity or Wisdom even higher, or learn a new Feat!
Level 9	3rd-Level Spells: You learn super cool nature spells, like <i>Conjure Animals</i> to summon friendly beasts to fight for you!
Level 10	Hide in Plain Sight: You are so sneaky that you can cover yourself in mud and leaves and become practically invisible!
