

THE ROGUE

CLASS HANDBOOK

The Sneaky Shadow!

Welcome, master of stealth! As a Rogue, you are the sneakiest, quickest, and cleverest hero in the group. You are an expert at picking locks, disarming traps, and hiding in the shadows. When monsters aren't looking, you strike with deadly precision!

AWESOME ROGUE POWERS

SNEAK ATTACK

This is your most powerful move! Once per turn, if you have Advantage on your attack (like if you are hiding), OR if one of your friends is standing right next to the monster, you get to roll a handful of extra damage dice! You know exactly where to hit to make it hurt.

DON'T FORGET: SNEAK ATTACK!

You get your extra Sneak Attack damage if you have **Advantage** (like attacking while hidden) OR if one of your friends is standing right next to the monster you are attacking!

DRAW YOUR HERO!

What does your sneaky Rogue look like? Do they wear a dark mask? What kind of cool daggers or gadgets do they carry? Draw them in the box below!

- **What is their name?**

- **What is their favorite shiny thing?**

- **What is their best magic trick or gadget?**

CUNNING ACTION

You are incredibly fast! You can use your Bonus Action to Dash (run super fast), Disengage (run away safely without getting hit), or Hide. This means you can attack a monster and then zip away before they can hit you back!

EXPERTISE

You are a master of your skills. You get to pick a few skills (like Stealth, Sleight of Hand, or Perception) and double your Proficiency Bonus for them. You are the absolute best at what you do!

STRENGTHS AND WEAKNESSES

- **Strengths:** You do massive damage with a single hit using Sneak Attack. You are also the most useful character outside of combat because you can pick locks, find traps, and scout ahead safely.
- **Weaknesses:** You wear light armor and don't have a lot of health. If you get stuck in the middle of a big group of monsters, you can get knocked out quickly. You have to stay mobile!

LEVELING UP (LEVELS 1-5)

As you adventure and defeat monsters, you will gain experience points and level up! Here is what you get at the first 5 levels:

LEVEL	NEW POWERS!
Level 1	Expertise: You pick two skills to be the absolute best at! Sneak Attack: You get your extra damage dice! Thieves' Cant: You learn a secret language of signs and symbols that only other Rogues understand.
Level 2	Cunning Action: You learn to Dash, Disengage, or Hide super fast as a Bonus Action!
Level 3	Roguish Archetype: You choose your special subclass (like Thief or Arcane Trickster). More Sneak Attack: Your Sneak Attack damage increases!
Level 4	Ability Score Improvement: You can make your Dexterity even higher, making you sneakier and better at hitting things!
Level 5	Uncanny Dodge: When a monster hits you, you can use your reaction to magically twist out of the way and take only half damage!

SUBCLASSES: YOUR ROGUISH ARCHETYPE

At Level 3, you choose a Roguish Archetype. This is your special style of being a Rogue! Here are two fun options:

THIEF (THE CLEVER TRICKSTER)

You are the classic cat burglar! You are amazing at climbing, jumping, and using gadgets.

- **Fast Hands:** You can use your Cunning Action to pick a lock, disarm a trap, or use an item (like throwing a smoke bomb) super fast in the middle of combat!
- **Second-Story Work:** You can climb walls much faster and jump much farther than anyone else.

COMBAT CHEAT SHEET

Not sure what to do on your turn? Here is a quick guide to your Rogue moves!

ACTION (CHOOSE ONE)

- **Attack:** Shoot your bow, throw a dagger, or stab with a shortsword! (Try to attack a monster that is next to your friend so you get **Sneak Attack!**)
- **Hide:** If you didn't use your Bonus Action to hide, you can use your Action to find a good hiding spot.

BONUS ACTION (CUNNING ACTION!)

- **Hide:** Duck behind a barrel or disappear into the shadows so monsters can't see you.
- **Dash:** Move twice as fast! Perfect for running across the battlefield.
- **Disengage:** Safely step away from a monster without letting them hit you!

REACTION (WHEN IT'S NOT YOUR TURN)

- **Uncanny Dodge:** (Level 5+) If a monster hits you, use your amazing reflexes to cut the damage in half!
- **Opportunity Attack:** If a monster tries to run away from you, you can stab them in the back! (And yes, this can trigger Sneak Attack again!)

JESTER LAVORRE

A fun and colorful trickster who loves pulling pranks! She travels the world causing chaos, eating pastries, and confusing bad guys with her magical illusions.

THE DREAD PIRATE ROBERTS

A famous swashbuckling pirate! He is a master fencer who swings from ropes, outsmarts enemy captains, and always escapes with the treasure.

BEST MAGIC ITEMS

Every master thief needs a few magical gadgets! Keep your eyes peeled for these awesome items:

- **Boots of Elvenkind:** These boots make your footsteps completely silent! You can walk on crunchy leaves or squeaky floors and no one will hear a thing.
- **Gloves of Thievery:** These magical gloves make your hands invisible! They give you a huge bonus when picking locks or doing slight-of-hand tricks.
- **Ring of Invisibility:** The ultimate Rogue item! Slip this on your finger and vanish from sight. Perfect for getting the ultimate Sneak Attack!
- **Dagger of Venom:** A wicked-looking dagger that drips with magical poison. It does extra damage to tough monsters!

ARCANE TRICKSTER (THE MAGIC SNEAK)

You mix stealth with magic! You learn wizard spells to trick your enemies and help you steal things.

- **Spellcasting:** You learn illusion and enchantment spells, like turning invisible or disguising yourself!
- **Mage Hand Legerdemain:** You get an invisible, magical floating hand that can pick locks and steal things from far away!

GEAR & STRATEGY

WEAPONS & ARMOR

Rogues need to be light on their feet!

- **Armor:** Wear Leather Armor. It's quiet and won't clank around when you are trying to hide.
- **Daggers:** You can hold one in each hand, and you can even throw them at monsters!
- **Shortbow or Crossbow:** Perfect for hiding in the shadows and shooting monsters from far away to get your Sneak Attack.
- **Thieves' Tools:** Your most important item! You need these to pick locks and disarm traps.

HOW TO FIGHT

Never fight fair! Always try to attack monsters that are already fighting your friends so you can use your **Sneak Attack**. Use your bow from the shadows, or run in with your daggers, attack, and use your **Cunning Action** to run away and hide behind a rock or barrel. Don't stand in the middle of the room where everyone can hit you!

ROLEPLAYING YOUR ROGUE

BACKGROUND IDEAS

Who were you before you became a Rogue?

Or are you a secret agent spy? Use your cleverness to trick enemies and get your friends out of trouble! Always check for traps before opening a door.
