

THE SORCERER

CLASS HANDBOOK

The Magic Prodigy!

Welcome, spellcaster! Unlike Wizards who have to study books, you were BORN with magic! Maybe your great-grandpa was a dragon, or maybe you were zapped by wild magic as a baby. Magic flows through your veins, and you can twist and change your spells in incredible ways!

AWESOME SORCERER POWERS

SORCERY POINTS

You have a pool of magical energy called Sorcery Points. You can spend these points to create extra Spell Slots when you run out, or you can turn your Spell Slots into more Sorcery Points. You are a battery of pure magic!

METAMAGIC

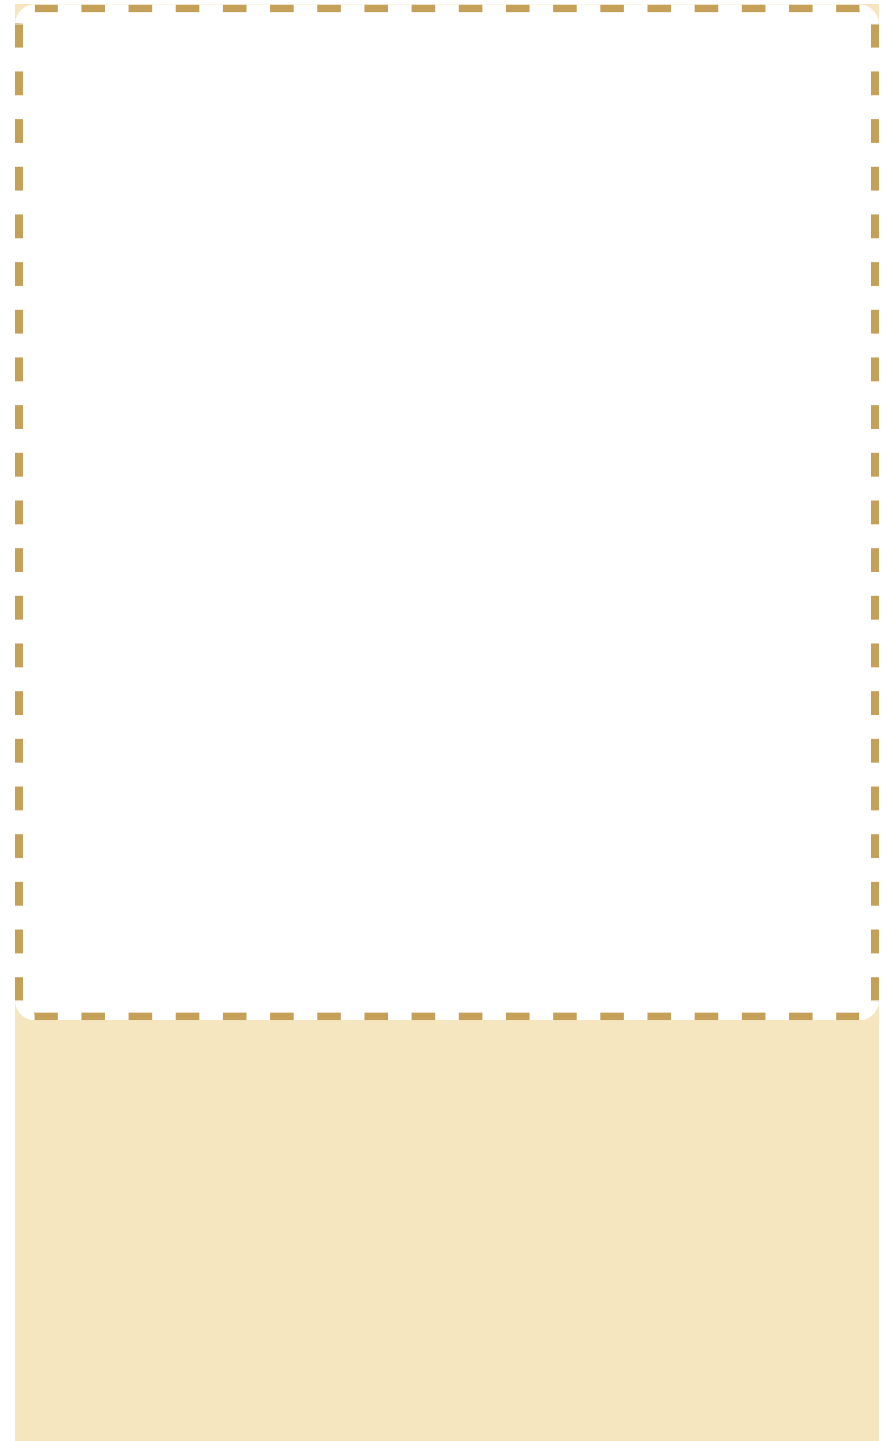

This is what makes you special! You can spend Sorcery Points to bend the rules of your spells. You can cast a spell totally silently (Subtle Spell), shoot a spell twice as far (Distant Spell), or even cast a spell that hits TWO monsters instead of one (Twinned Spell)!

STRENGTHS AND WEAKNESSES

- **Strengths:** You can do things with magic that no one else can do using Metamagic. You are also very charismatic, making you great at talking to people and convincing them to help you.
- **Weaknesses:** You don't know as many different spells as a Wizard or Cleric. You also wear no armor and have very low health, so you need to stay far away from the monsters!

LEVELING UP!

As you go on adventures and defeat monsters, you will gain Experience Points (XP) and level up! Here is what you get for your first 5 levels as a Sorcerer:

YOUR ACTION

- **Cast a Big Spell:** Use a Spell Slot to cast something huge, like *Fireball* or *Magic Missile*.
- **Cast a Cantrip:** If you want to save your big magic, cast *Fire Bolt* or *Ray of Frost* for free!

YOUR BONUS ACTION

- **Quickened Spell:** If you use this Metamagic, you can cast a big spell as a Bonus Action instead of an Action!
- **Convert Points:** Turn a Spell Slot into Sorcery Points, or turn Sorcery Points into a new Spell Slot.

YOUR REACTION

- **Cast Shield:** If a monster tries to hit you, use your Reaction to quickly put up a magical force field!

DRAW YOUR HERO!

What does your Sorcerer look like? Grab some crayons or colored pencils and draw them here!

- What is your Sorcerer's name?

- What color is their magic when they cast a spell?

- What is their favorite food?

LEVEL	AWESOME NEW POWERS!
Level 1	Sorcerous Origin: You pick where your magic comes from (like a Dragon or Wild Magic). Spellcasting: You know 4 Cantrips (easy spells) and 2 Level 1 spells!
Level 2	Font of Magic: You get 2 Sorcery Points! You can use these to create extra spell slots so you can cast more magic.
Level 3	Metamagic: You learn how to twist your spells! You pick 2 Metamagic options (like Twinned Spell to hit two targets, or Quickened Spell to cast really fast). Level 2 Spells: You can now learn stronger spells, like <i>Scorching Ray</i> or <i>Invisibility</i> !
Level 4	Ability Score Improvement: You can increase your Charisma to make your spells even harder to dodge, or pick a cool Feat!
Level 5	Level 3 Spells: You unlock super powerful magic! You can now cast the famous <i>Fireball</i> spell or <i>Fly</i> through the air!

AWESOME SUBCLASSES

At Level 1, you choose your **Sorcerous Origin**. This is where your magic comes from! Here are two really fun options:

DRACONIC BLOODLINE

"Roar! I have the power of a mighty dragon!"

Somewhere in your family tree, there was a real, actual dragon! Because of this, you have dragon magic inside you.

- **Dragon Scales:** Parts of your skin are covered in tough, shiny dragon scales. You don't even need to wear armor because your scales protect you!
- **Extra Health:** You are tougher than a normal Sorcerer and get extra hit points every time you level up.
- **Elemental Affinity:** At Level 6, spells that match your dragon type (like fire for a Red Dragon or ice for a White Dragon) do extra damage!

ZOOK THE WILD TRICKSTER

Zook is a gnome with Wild Magic. Once, he tried to cast a simple light spell, and accidentally turned his hair neon pink and made it rain bubbles! He travels the world solving problems in the most unpredictable and funny ways.

BEST MAGIC ITEMS

Keep your eyes peeled for these amazing treasures on your adventures!

- **Bloodwell Vial:** A super cool glass vial you can wear like a necklace. It helps you get your Sorcery Points back faster so you can keep twisting your magic!
- **Wand of the War Mage:** A glowing wand that makes it much easier for your spell attacks to hit the bad guys. It practically aims itself!
- **Cloak of Displacement:** A magical cape that makes you look like you are standing slightly to the side of where you actually are. Monsters will have a really hard time hitting you!
- **Ring of Protection:** Since you don't wear armor, this magical ring creates an invisible shield around you to keep you safe from harm.

COMBAT CHEAT SHEET

Not sure what to do on your turn? Here is a quick guide to being an awesome Sorcerer in battle:

LEVEL	AMAZING NEW POWERS!
Level 6	Subclass Feature: Your Sorcerous Origin gives you a new power! (Like extra damage for Draconic Bloodline or bending luck for Wild Magic.)
Level 7	Level 4 Spells: You unlock bigger spells! You can turn invisible and walk through walls, or create a giant wall of fire!
Level 8	Ability Score Improvement: Increase your Charisma again, or pick a fun new Feat!
Level 9	Level 5 Spells: Wow! You can now cast spells that hold monsters in place (like <i>Hold Monster</i>) or create a giant cone of freezing cold!
Level 10	More Metamagic: You learn another special trick for bending your spells, making you even trickier!

FAMOUS SORCERERS

Throughout history, many powerful heroes were born with magic. Here are a few famous Sorcerers to inspire you:

EMBER THE DRAGON-TOUCHED

Ember was born with glowing red scales on her arms. She once saved a whole village from an icy blizzard by using her powerful fire magic to melt the snow and keep everyone warm. She is known as the bravest Sorcerer in the fiery lands!

WILD MAGIC

"Oops! Did I just turn the goblin into a potted plant?"

Your magic is chaotic, unpredictable, and super fun! Sometimes when you cast a spell, something completely random and crazy happens.

- **Wild Magic Surge:** When you cast a spell, the DM might ask you to roll a 20-sided die. If you roll a 1, you roll on the Wild Magic table! You might accidentally turn invisible, grow a beard of feathers, or shoot a fireball at your own feet!
- **Tides of Chaos:** Once per day, you can give yourself advantage (roll twice and pick the highest) on an attack or saving throw by letting your wild magic loose!

GEAR & STRATEGY

WHAT TO WEAR AND CARRY

Sorcerers don't wear heavy armor or carry big swords. Your magic is your weapon!

- **Weapons:** You might carry a simple dagger or a light crossbow just in case, but you will almost always use your damage Cantrips (like *Fire Bolt* or *Ray of Frost*) instead of a weapon.
- **Arcane Focus:** This is a special item you use to channel your magic. It could be a glowing crystal, a magical wand, or a cool wooden staff!
- **Explorer's Pack:** A backpack with a bedroll, rations, a water skin, and torches for your adventures.

HOW TO FIGHT

1. STAY IN THE BACK!

You have very few hit points. Let the Fighter or the Paladin stand in the front to take the hits. You should stand far away and blast the monsters with your spells!

2. USE YOUR METAMAGIC

Don't forget your special tricks! If two of your friends are hurt, use *Twinned Spell* to cast a buff on both of them at once. If a monster is hiding, use *Seeking Spell* to make sure your magic hits them!

3. MANAGE YOUR SORCERY POINTS

Your Sorcery Points are super important. If you run out of Spell Slots, you can spend Sorcery Points to make more! But be careful not to use them all up too fast.

ROLEPLAYING YOUR SORCERER

WHO ARE YOU?

Because your magic is a part of you, it affects your personality! Since Charisma is your highest stat, you are naturally confident, charming, and maybe a little bit flashy.

- **The Show-Off:** You love using your magic to impress people. You use *Prestidigitation* to make sparks fly when you enter a room.
- **The Scared Kid:** Your magic is so powerful that it scares you a little bit! You are still learning how to control it.
- **The Dragon-Fan:** (If you are Draconic Bloodline) You are obsessed with dragons. You collect dragon scales, read books about dragons, and try to roar when you get mad!

WHAT DOES YOUR MAGIC LOOK LIKE?

When a Sorcerer casts a spell, it looks unique to them! Think about how your magic looks, sounds, and smells:

- Does your *Magic Missile* look like tiny glowing dragons?
- When you cast a spell, does the air smell like thunderstorms or cotton candy?
- Do your eyes glow a bright color when you use your Sorcery Points?

Have fun, be creative, and let your magic shine!

MORE LEVELING UP! (LEVELS 6-10)

Your magical powers are growing stronger! Here is what happens when you reach the next levels:
